Obstetrics & Gynaecology Textbooks for ITP trainees.

RANZCOG is in the process of changing to a web-based Flexible Learning Programme (FLP). A number of textbooks are recommended with each individual FLP. Trainees do not need to own all of these texts but they should be available in hospital libraries of teaching hospitals. The RANZCOG New Zealand Training Accreditation Committee, aided by current trainees, have prepared this list of major texts which trainees may wish to own. A suggested list of books for libraries follows this list.
